Tachyon kinematics and causality: a systematic thorough analysis of the tachyon causal paradoxes
E Recami
Foundations of Physics 17 (3), 239-296

Localized waves
John Wiley & Sons

Propagation speed of evanescent modes
APL Barbero, HE Hernández-Figueroa, E Recami
Physical Review E 62 (6), 8628

Explaining the large numbers by a hierarchy of «universes»: A unified theory of strong and gravitational interactions
P Caldirola, M Pavšič, E Recami
Il Nuovo Cimento B Series 11 48 (2), 205-271

New localized Superluminal solutions to the wave equations with finite total energies and arbitrary frequencies
M Zamboni-Rached, E Recami, HE Hernández-Figueroa
The European Physical Journal D-Atomic, Molecular, Optical and Plasma...

More about Tunnelling Times, the Dwell Time and the “Hartman Effect"
VS Olkhovsky, E Recami, F Raciti, AK Zaichenko
Journal de Physique I 5 (10), 1351-1365

Antiparticles from special Relativity with ortho-chronous and antichronous Lorentz transformations
E Recami, WA Rodrigues Jr
Foundations of Physics 12 (7), 709-718

Superluminal motions? A bird’s-eye view of the experimental situation
E Recami
Foundations of Physics 31 (7), 1119-1135

Zitterbewegung and electron structure
WA Serras Jr, J Vaz Jr
Clifford Algebras and their Applications in Mathematical Physics, 397-404

Spin and electron structure
M Pavšič, E Recami, WA Rodrigues, GD Maccarrone, F Raciti, G Salesi
Physics Letters B 318 (3), 481-488

**Kinematics and hydrodynamics of spinning particles**
E Recami, G Salesi
Physical Review A 57 (1), 98

**On the localized superluminal solutions to the Maxwell equations**
E Recami, M Zamboni-Rached, KZ Nóbrega, C Dartora, EFH Hernández
Selected Topics in Quantum Electronics, IEEE Journal of 9 (1), 59-73

**Tachyons, monopoles, and related topics**
E Recami
North-Holland

**Special relativity and superluminal motions: a discussion of some recent experiments**
E Recami, F Fontana, R Garavaglia
International Journal of Modern Physics A 15 (18), 2793-2812

**ON THE SHAPE OF TACHYONS.**
AO Barut, GD Maccarrone, E Recami

**More about Lorentz transformations and tachyons: answer to the comments by Ramachandran, Tagare and Kolaskar**
E Recami, R Mignani

**Time operator in quantum mechanics**
VS Olkhovsky, E Recami, AJ Gerasimchuk
Il Nuovo Cimento A 22 (2), 263-278

**Duration length symmetry in complex three-space and interpreting superluminal Lorentz transformations**
R Mignani, E Recami

**Il caso Majorana, epistolario, documenti, testimonianze**
E Recami
Di Renzo Editore

**Are muon neutrinos faster-than-light particles?**
E Giannetto, GD Maccarrone, R Mignani, E Recami
Physics Letters B 178 (1), 115-120

Superluminal processes and signal velocity in tunneling simulation
D Mugnai, A Ranfagni, R Ruggeri, A Agresti, E Recami
Physics Letters A 209 (3), 227-234

Solving the «imaginary quantities» problem in superluminal Lorentz transformations
E Recami, GD Maccarrone
Lettere Al Nuovo Cimento Series 2 28 (4), 151-157

Charge conjugation and internal space-time symmetries
M Pavšič, E Recami
Lettere al Nuovo Cimento 34 (12), 357-362

Two-body interactions through tachyon exchange
GD Maccarrone, E Recami
Il Nuovo Cimento A 57 (1), 85-101

Tachyons do not emit Čerenkov radiation in vacuum
R Mignani, E Recami

About collision-process lifetimes and causality
VS Olkhovsky, E Recami
Il Nuovo Cimento A Series 10 63 (3), 814-826

Localized X-shaped field generated by a superluminal electric charge
E Recami, M Zamboni-Rached, CA Dartora
Physical Review E 69 (2), 027602

Formal and physical properties of the generalized (subluminal and superluminal) Lorentz transformations
GD Maccarrone, M Pavšič, E Recami
Il Nuovo Cimento B Series 11 73 (1), 91-111

Localized waves: a review
E Recami, M Zamboni-Rached
Advances in Imaging and Electron Physics 156, 235

Superluminal tunnelling through successive barriers: Does QM predict infinite group-velocities?
E Recami
Superluminal localized solutions to Maxwell equations propagating along a waveguide: The finite-energy case
M Zamboni-Rached, F Fontana, E Recami
Physical Review E 67 (3), 036620

Considerations about the apparent «superluminal expansions» observed in astrophysics
E Recami, A Castellino, GD Maccarrone, M Rodono
Il Nuovo Cimento B Series 11 93 (2), 119-144

On the physical nonexistence of signals going backwards in time, and quantum mechanics
A Garuccio, GD Maccarrone, E Recami, JP Vigier

About Lorentz transformations and tachyons
VS Olkhovsky, E Recami

Second contribution on solving the «imaginary quantities» problem in superluminal Lorentz transformations
P Caldirola, GD Maccarrone, E Recami
Lettere Al Nuovo Cimento Series 2 29 (8), 241-250

Comments about recent letters on spacelike states
M Baldo, E Recami

Time as a quantum observable
VS Olkhovsky, E Recami
International Journal of Modern Physics A 22 (28), 5063-5087

Elementary Particles as Micro-Universes, and “Strong Black-holes”: A Bi-Scale Approach to Gravitational and Strong Interactions
E Recami
Preprint NSF-ITP-02-94. Posted in the arXives as the e-print physics/0505149 ...

A time operator and the time-energy uncertainty relation
E Recami
The Uncertainty Principle and Foundation of Quantum Mechanics, 21-28

How to interpret advanced solutions
https://scholar.google.it/citations?user=FO_yAByAAAAJ&hl=it
R Mignani, E Recami

Superluminal frames and the group of generalized Lorentz transformations in four dimensions
R Mignani, E Recami, U Lombardo

Tunnelling times: an elementary introduction
G Privitera, G Salesi, VS Olkhovsky, E Recami

Limited-Diffraction Solutions to Maxwell and to Schroedinger Equations
J Lu, JF Greenleaf, E Recami
arXiv preprint physics/9610012

A model-theory for tachyons in two dimensions
E Recami, WA Rodrigues Junior
Universidade Estadual de Campinas (Brazil). Inst. de Matematica, Estatistica ...

Chirped optical X-shaped pulses in material media
M Zamboni-Rached, HE Hernández-Figueroa, E Recami
JOSA A 21 (12), 2455-2463

A modified large number theory with constant G
E Recami
Foundations of Physics 13 (3), 341-346

Space-time shifts and cross-sections in collisions between relativistic wave packets
VS Olkhovsky, E Recami
Il Nuovo Cimento A Series 10 53 (3), 610-624

Subluminal wave bullets: Exact localized subluminal solutions to the wave equations
M Zamboni-Rached, E Recami
Physical Review A 77 (3), 033824

A velocity field and operator for spinning particles in (nonrelativistic) quantum mechanics
G Salesi, E Recami
Foundations of physics 28 (5), 763-773

Reply to the comments by leavens on Olkhovsky-Recami’s approach to the “tunnelling time problem”: More about the time
analysis of tunnelling processes
VS Olkhovsky, E Recami, AK Zaichenko
Solid state communications 89 (1), 31-35

The classical problem of the charge and pole motion. A satisfactory formalism by Clifford algebras
WA Rodrigues, E Recami, A Maia, MAF Rosa
Physics Letters B 220 (1), 195-199

A theory of strong interactions «from» general relativity
P Caldirola, E Recami
Lettere Al Nuovo Cimento Series 2 24 (16), 565-571

A new unified approach to bradyons and tachyons by conformal transformations
M Pavšič, E Recami

The Tolman-Reggeantitime paradox: its solution by tachyon mechanics
E Recami
Lettere Al Nuovo Cimento Series 2 44 (8), 587-593

About charged tachyons
M Baldo, G Fonte, E Recami

Tunneling through two successive barriers and the Hartman (Superluminal) effect
VS Olkhovsky, E Recami, G Salesi
Europhys. Lett 57, 879-884

SOME APPLICATIONS OF NON-HERMITIAN OPERATORS IN QUANTUM MECHANICS AND QUANTUM FIELD THEORY
E Recami, WA Rodrigues Jr, P Smrz

How to recover causality for tachyons even in macrophysics
M Pavšič, E Recami
Il Nuovo Cimento A Series 11 36 (2), 171-186

The introduction of Superluminal Lorentz transformations: A revisititation
GD Maccarrone, E Recami
Foundations of physics 14 (5), 367-407
